

## EMBODYING THE CHARACTER

by using the Alexander Technique  
Taught by Jean-Louis Rodrigue & Kristof Konrad

All communication starts with the body. It is the point of origin for the voice, emotional life, and physical activity. It also creates and communicates meaning for the audience - our physical actions and responses are interpreted by the onlooker - and performers need to be in charge of this process.

*"With the best of intentions, the job of acting can become a display of accumulated bad habits, trapped instincts and blocked energies. Working with the Alexander Technique to untangle the wires has given me sightings of another way; mind and body, work and life together. Real imaginative freedom."*

"Jean-Louis' teaching is nothing short of life transformational. His class is a must for any serious actor."

- HOWARD FINE

"I really like to look into the physical acting characteristics of my character, because it helps me to transform. The Alexander Technique helps me to burrow into roles like gay cowboys and drug addicts by focusing on my posture, movement, and presence."

- HEATH LEDGER

Working with Kristof has been tremendously helpful. Through body awareness and proper physical alignment, he helps open up channels of energy that enable full presence of being. He focuses on the details of a character that most fully connect to a visceral core – a character's animal, their element, their core image or symbol. He helps actors build their characters through a process of fluidity, not rigidity, always working through the body. The bottom line is Kristof will help you bring LIFE to every moment of a performance – simple, unforced, bold, and electric!"

- MICHAEL WELCH

"The Alexander technique is invaluable to actors of all ages. It helps us find new depth in exploring the physical and emotional life of a character. And it has helped me correct physical issues which affect my daily life. Jean-Louis and Kristof immediately create a level of trust and comfort in teaching this technique which allows all of us in the class to open up to the learning experience. I continue to work privately with them because I believe so strongly in their skill in teaching this technique, and its positive effect on my well-being."
